

Vaccination Identification Program

To help ensure the health of your livestock and the sustainability of the American beef industry, CENTRAL LIVESTOCK offers the **Vaccination Identification Program (VIP)**. To participate, complete the VIP report card to certify your cattle vaccinations, including:

- **Veterinary Certification:** Vaccines given by a veterinarian with a vet's signature.
- **Producer Certification:** Vaccines given by the producer with the producer's signature.
- **Beef Quality Certification:** BQA certified. All requirements of the BQA program have been met.
- **Castration:** Method used should be stated. Knife castration is preferred.
- **VIP Plus:** To qualify for VIP Plus, your cattle must have been vaccinated at least 3 weeks prior to sale date with a virus, clostridial and pasteurella product.

Recommended Vaccinations include:

- Viruses: IBR, BVD, PI3, BRSV (example-Pyramid 4, Bovishield 4)
- For Clostridials: 7-way, may contain Haemophilus (example-Fortress 7, Alpha 7)
- For Pasteurellas: P.Hemolytica, P.Multocida (example-One Shot, Once PMH, Pyramid4+Presponse)

Completed VIP Report Cards should be submitted when delivering your cattle to a CENTRAL LIVESTOCK market location. Your VIP Report Card will be reviewed and information announced or displayed in the auction ring while your cattle are being sold. A copy of the VIP Report Card will also be issued to the buyer upon request.

When you choose to participate in VIP, you have taken the first step to building a strong reputation for your cattle.

If you have any questions about VIP, please contact your local market:

Albany Market 800.733.6828 • Zumbrota Market 877.732.7305
Rock Creek Market 320.629.1122 • West Fargo Market 800.733.4620
